

Degrowth-Expert at the Wuppertal Institute

**Extractivism in Canadian Tarsands and German Coal:
a struggle between a 'capitalist pressure to extract' and an
ecological imperative of transition**

Talk with Prof. Eric Pineault

23. January 2017 at 18:00 o'clock
in the Wuppertal Institute's hall (Aula)

Eric Pineault is a professor of sociology at the University of Québec at Montréal. His main areas of interest include financialisation, the historical sociology of money and economic institutions, the contradictions of advanced capitalism as well as the political economy of degrowth.

Presentations of and discussion with

Prof. Eric Pineault
